

# Mobile Office

Access Health Dental's mobile office is a state-of-the-art, 53-foot custom built dental office with five fully functioning, private operatories with the capability to address most of our patients' dental care needs. Relax during your treatment by enjoying your favorite TV program or movie on your personal TV screen. From cleanings and fillings, to implants and veneers, the friendly staff onboard Access Health Dental's mobile dental office can do it all!

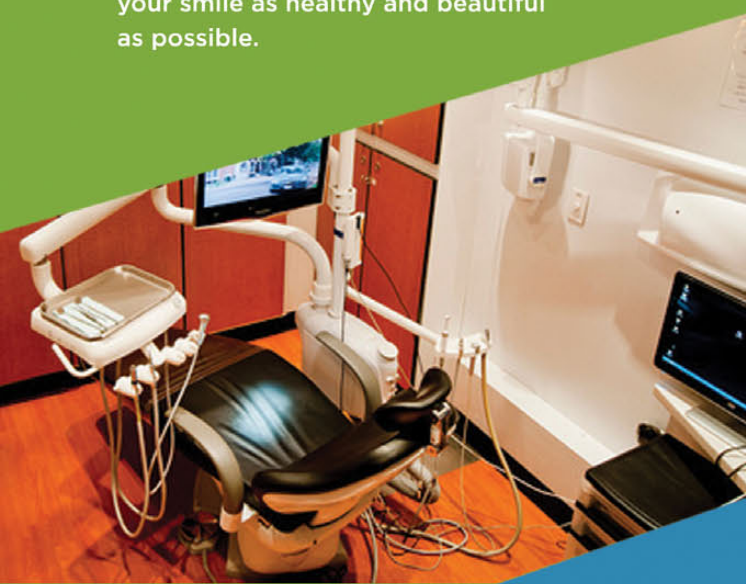

Access Health Dental's mobile office is deployed at many of the casinos along the Strip, with the availability to schedule appointments before, during, or after work. We even accept walk-ins! Our goal at Access Health Dental is to eliminate barriers to quality dental care by bringing quality dental care on-site to your workplace. We provide you with the convenience and accessibility to keep your smile as healthy and beautiful as possible.

## Mission Statement

Access Health Dental is a dental care provider focused on systemic health of our patients, and our community; and is dedicated to providing accessible, reliable and professional care in a welcoming environment.

is now

On-Site Dental is pleased to announce its grand re-opening as Access Health Dental with an increased commitment to offer our patients the very best in oral healthcare. Our renewed focus on providing unmatched professional, courteous, accessible and reliable care reflects an improvement in the way we are thinking of dentistry, and what it means for our patients and local communities.

## The Importance of Dental Care

Maintaining good oral health is essential to a healthy lifestyle. Poor oral health has been linked to ailments throughout the body, including issues such as heart disease and diabetes. Because Access Health Dental is committed to improving the overall well-being of our patients through oral health prevention and treatment, our dentists are dedicated to providing the highest quality of care to every patient.
